

Cablcon's VFM® integrates fiber cable (up to 48 fibers) with fiber panels through a unique fiber delivery system, delivering a cost-effective, high-performance solution that reduces engineering, ordering, and installation time while accelerating deployment. Complementing this system, the Q6313-6044L Wall Mount Slack Management system provides a compact, efficient solution for storing excess cable, featuring a single- or dual-reel spool design with optional custom spacing. Its durable arms and compact baseplate support clean, organized slack management across a variety of installations.

Features

Q6313-6044L

- Allows for excess fiber cable to be spooled and maintained for the life of your installation.
- Fiber can be stored with either a single or dual reel solution.
- By distancing or spacing the reels in the dual reel application, a greater amount of cable may be stored.

Dimensions

- Baseplate: 14"W x 20"L
- Arms: 10" D
