

Cablcon Web Based  
RF Test Reports  
[rf.cablcon.com/client](http://rf.cablcon.com/client)

In an effort to better support the industry and be more environmentally responsible, Cablcon provides assembly test results online, rather than send paper printouts in all RF assembly shipments.

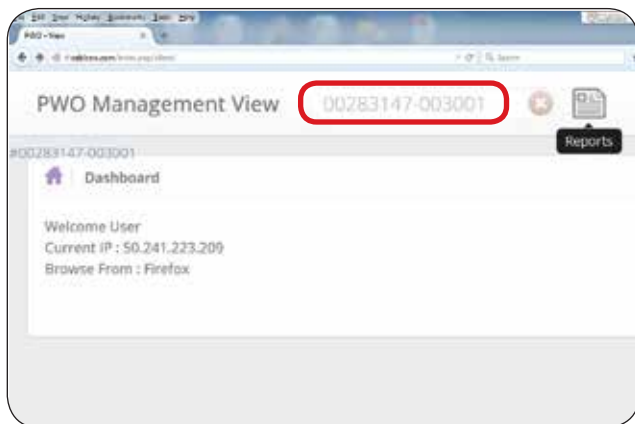

Boxes will have a label showing the website to access test results:

Once on the [rf.cablcon.com/client](http://rf.cablcon.com/client) website, please find the Production Work Order (PWO) number that is printed on the label of every assembly:

2. Enter this number into the box as shown below.  
After information is entered, press the "Reports" button to retrieve the results.

Example of the results page:

Table #	100-100 MHz RL	100-200 MHz RL	100-200 MHz RL	100-200 MHz RL	100-200 MHz RL
1	-12.21	-39.03	-4.38	-26.27	-119.4
2	-12.21	-31.14	-4.37	-27.52	-119.7
3	-12.2	-31.06	-4.36	-27.36	-119.2
4	-12.22	-32.46	-4.36	-27.63	-119.3
5	-12.21	-32.08	-4.35	-26.27	-119.1
6	-12.21	-32.27	-4.37	-26.56	-119.7
7	-12.2	-31.62	-4.35	-26.13	-119.7
8	-12.21	-32.30	-4.37	-27.67	-119.8
9	-12.23	-32.76	-4.37	-26.27	-119.5
10	-12.2	-32.02	-4.37	-27.61	-119.4

3. From here you can enter a new PWO, print the results, email as a PDF attachment, or export to Excel.

If no results are returned, please try again or contact Cablcon's customer service department at 800.969.9220.
